

In the 1980s Mr. Wally Conron of Australia began breeding Standard Poodles with Labrador Retrievers. Conron's objective was to breed guide

# Labradoodle

dogs that  
did not shed  
(from the  
Poodle)  
with  
the tem-  
perament  
and frame  
of the Lab.  
His labors are  
considered a

prime

example of crossbreeding  
for a specific purpose, and

55-77 lbs.

21-26" tall

time will tell if they are

accepted into the AKC.

These dogs, professionally trained, make excellent companions both for the blind and other assistance uses. All in all, this is a sweet, gentle, caring animal. Eager to serve, cheerful in all weathers and ready at a moment's notice to go to work... and they come in a variety of colors.
